Reverse Engineering · API & AI · Web Security

PREMIUM EDITION 02.0 · 2026
PRIMARY DOMAIN mbk.global
MASTER HANDLE @MBK_Bakhtawar

2026

Executive Brand Blueprint

BUILD THE ENTITY, NOT JUST THE PROFILE

The objective is to make your name, brand, and expertise easy to understand, verify, remember, and discover — across every platform, in every search engine, and through AI-powered answer engines.

PILLAR	FUNCTION	OUTCOME
IDENTITY	One master name, handle, photo, positioning, and website	Instant recognition
AUTHORITY	Proof through projects, publications, open source, talks, references	Earned trust
DISCOVERABILITY	SEO, structured data, content clusters, profile consistency	Organic growth

CORE POSITIONING

Muhammad Bakhtawar Khan (MBK_Bakhtawar) is the Founder of MBK.GLOBAL, specializing in Reverse Engineering, API & AI solutions, and Web Security.

BRAND PROMISE

Make complex digital systems safer, smarter, and more scalable — while building a credible public footprint around the expertise behind MBK.GLOBAL.

Core Positioning + Brand Pillars

A SINGLE IDEA, REPEATED WITH EVIDENCE

PILLAR	FOCUS	SIGNAL
SECURITY	Web security, API security, secure architecture	Signal Green
ENGINEERING	Reverse engineering, systems analysis, technical problem-solving	Data Blue
AI	Practical AI solutions, automation, intelligent workflows	Neural Violet
AUTHORITY	Publishing, open source, talks, case studies, evidence	Authority Amber

■ POSITIONING RULE

Keep the role, specialties and canonical website stable. Let the evidence evolve.

■ BRAND PROMISE

Make complex digital systems safer, smarter, and more scalable.

■ EDITORIAL PRINCIPLE

Authority is demonstrated through useful work, not inflated through claims.

Brand System & Visual Identity

MASTER IDENTITY LOCK

ELEMENT	PRIMARY	SECONDARY
Public Name	Muhammad Bakhtawar Khan	MBK Bakhtawar
Brand	MBK.GLOBAL	MBK
Handle	@MBK_Bakhtawar	MBK.Bakhtawar
Website	https://mbk.global	—
Role	Founder & CEO — MBK.GLOBAL	Technology & Security Specialist
Core Topics	Reverse Engineering • API • AI • Web Security	Cybersecurity • Digital Technology
Country	Pakistan	International audience

VISUAL DIRECTION

SYSTEM	DIRECTION
TYPOGRAPHY	One clean sans-serif family; bold headings + compact body copy
IMAGERY	Professional portrait; dark technical environments; clean UI screenshots; consistent color grading
GRAPHICS	Minimal grids, nodes, API diagrams, code fragments, geometric lines

SIGNATURE TAGLINES

“Securing Digital Infrastructure, One API at a Time.”

“Reverse Engineering & AI Solutions for Modern Businesses.”

“MBK.GLOBAL — Where Security Meets Innovation.”

Visual Direction

QUIET-LUXURY DARK MODE / TECHNICAL EDITORIAL

TOKEN	VALUE	USE
BASE	#0A0E14	Background
SURFACE	#11161F	Cards / panels
DIVIDER	#1E2633	1px rules
ACCENT 01	#00E5A0	Security
ACCENT 02	#4DA3FF	Engineering
ACCENT 03	#A855F7	AI
ACCENT 04	#FFB020	Authority
TEXT HIGH	#F5F7FA	Headings
TEXT MID	#8A94A6	Body

ELEMENT	RULE
GRID	12-column editorial grid; generous whitespace
CARDS	Dark surface, restrained radius, no drop shadows
GRAPHICS	1px node graphs, geometric line work, no heavy fills
CODE	Mono type, small scale, restrained opacity
PORTRAIT	One master portrait; duotone treatment; max 3 appearances
ACCENTS	Use only to establish hierarchy or meaning

Signature Taglines

THREE VERBAL ANCHORS FOR THE BRAND

■ SECURITY

Securing Digital Infrastructure, One API at a Time.

■ INNOVATION

Reverse Engineering & AI Solutions for Modern Businesses.

■ POSITIONING

MBK.GLOBAL — Where Security Meets Innovation.

Use one primary line per context. Avoid rotating all three within the same profile.

Digital Identity Architecture

ONE PERSON · ONE ENTITY · MANY DISTRIBUTION CHANNELS

PLATFORM	HANDLE	PRIORITY	FUNCTION
Website	mbk.global	P0	Canonical identity + authority hub
LinkedIn	/in/mbk-bakhtawar	P0	Professional authority
GitHub	MBK-Bakhtawar	P0	Technical proof
YouTube	@MBK_Bakhtawar	P0	Video authority
Instagram	@mbk_bakhtawar	P1	Visual identity
X	@MBK_Bakhtawar	P1	Conversation + distribution
Pinterest	@mbk_bakhtawar	P1	Image discovery
Medium	@mbk_bakhtawar	P1	Long-form content
Dev.to	@mbk_bakhtawar	P1	Developer authority
Hashnode	@mbk_bakhtawar	P1	Technical publishing
Reddit	u/MBK_Bakhtawar	P2	Community participation
Telegram	@MBK_Bakhtawar	P2	Direct community
Facebook	/MBK_Bakhtawar	P2	Brand distribution
Quora	MBK_Bakhtawar	P2	Expert answers

Profile Consistency Matrix

CONSISTENCY WITHOUT CLONING

ELEMENT	REQUIRED	NOTES
Name	YES	Muhammad Bakhtawar Khan
Profile Photo	YES	Use one professional master portrait
Bio Positioning	YES	Keep role + 3-4 core specialties
Website	YES	Point to mbk.global
Username	As close as possible	Prefer MBK_Bakhtawar
Brand Visuals	YES	Same visual language, not necessarily identical banner

■ MASTER RULE

Same identity system everywhere; platform-specific formatting is acceptable.

■ DO NOT

Create duplicate identities, artificial claims, or inconsistent professional positioning.

Website — The Source of Truth

RECOMMENDED INFORMATION ARCHITECTURE

PAGE	PURPOSE	CONTENT
Home	Immediate positioning	Hero + services + proof + featured work + CTA
About	Entity clarity	Biography + expertise + mission + credentials
Services	Commercial intent	API security + AI + reverse engineering + web security
Case Studies	Proof	Problem → approach → result → technology
Projects	Technical proof	Open-source tools, experiments, demos
Insights	Topical authority	SEO-led articles and technical explainers
Media / Press	Third-party validation	Interviews, podcasts, articles, mentions
Contact	Conversion	Professional inquiry form + email + social links

HOMEPAGE HERO

MUHAMMAD BAKHTAWAR KHAN

Founder of [MBK.GLOBAL](#)

Reverse Engineering · API & AI · Web Security

Helping businesses understand, secure, and scale modern digital infrastructure.

Homepage Hero + Technical SEO Baseline

THE FIRST 10 SECONDS SHOULD ANSWER WHO / WHAT / WHY

■ WHO

Muhammad Bakhtawar Khan — Founder of MBK.GLOBAL

■ WHAT

Reverse Engineering · API & AI · Web Security

■ WHY

Helping businesses understand, secure, and scale modern digital infrastructure.

TECHNICAL SEO BASELINE

- HTTPS, canonical URLs, XML sitemap, robots.txt
- Unique title + meta description for every indexable page
- Open Graph / social preview metadata
- Organization + Person + WebSite structured data
- Fast mobile experience and compressed images
- Clear internal linking between profile, services, projects, articles
- Search Console monitoring and index coverage review
- Core Web Vitals optimization
- AI answer engine optimization (ChatGPT, Perplexity, Google SGE)

Entity, Schema & Knowledge Graph

STRUCTURED DATA SUPPORTS REAL-WORLD IDENTITY

Schema is a signal, not a guarantee of rankings or a Knowledge Panel.

FIELD	VALUE
name	Muhammad Bakhtawar Khan
alternateName	MBK_Bakhtawar
jobTitle	Founder & CEO, MBK.GLOBAL
url	https://mbk.global
worksFor	MBK.GLOBAL
knowsAbout	Reverse Engineering, API Security, AI, Web Security
sameAs	Verified social and professional profiles
image	Canonical professional portrait on mbk.global
address	Use only appropriate public business/location information

ENTITY TRUST STACK

LAYER	SOURCE	EXAMPLES
FIRST-PARTY	Your website	About page, projects, contact details
SECOND-PARTY	Verified profiles	LinkedIn, GitHub, YouTube
THIRD-PARTY	Independent sources	Articles, podcasts, events, references

Entity Trust Stack

EVIDENCE FIRST — SEARCH ENGINES DECIDE THE ENHANCED FEATURES

■ FIRST-PARTY

Your website should clearly establish who you are, what you do, what you have built, and how people can verify it.

■ SECOND-PARTY

Verified professional and technical profiles reinforce the same identity across independent platforms.

■ THIRD-PARTY

Independent articles, podcasts, events and references provide external evidence.

IMPORTANT CORRECTION

Do not create artificial claims, fake press, fabricated reviews, or duplicate identities simply to trigger a Knowledge Panel. Build the underlying evidence first; search engines decide whether and when enhanced entity features appear.

Content Engine

FIVE PILLARS · ONE DISTRIBUTION SYSTEM

#	PILLAR	FOCUS	FORMAT
01	EDUCATE	Beginner guides, explainers, API concepts, security fundamentals	Articles, carousels, short videos
02	BUILD	Projects, demos, code walkthroughs, architecture, experiments	GitHub, tutorials, live streams
03	ANALYZE	Technical breakdowns, threat analysis, lessons learned	Deep-dive posts, case studies
04	PROVE	Case studies, before/after stories, benchmarks, outcomes	PDFs, presentations, videos
05	PERSONAL BRAND	Founder story, principles, lessons, career, industry perspective	LinkedIn, podcasts, interviews

■ DISTRIBUTION

One strong article → LinkedIn → X → short video → carousel → Pinterest → newsletter

■ CTA SYSTEM

Every piece should lead to one next action: read, watch, contact, follow, or explore.

90-Day Editorial Calendar

PHASED AUTHORITY BUILDING

PHASE	ARTICLES	SHORT POSTS	VIDEOS	FOCUS
Days 1-30	4 authority articles	12	2	Foundation
Days 31-60	4 technical articles	12	3	Topical depth
Days 61-90	4 advanced articles / case studies	12	3	Authority + proof

HIGH-VALUE ARTICLE IDEAS

- 01 Who Is Muhammad Bakhtawar Khan? — Founder of MBK.GLOBAL
- 02 API Security for Modern Businesses: Practical Threat Model
- 03 Reverse Engineering: Methodology, Ethics, and Real-World Applications
- 04 REST vs GraphQL Security: What Changes?
- 05 AI-Assisted Security Workflows: Where Automation Helps
- 06 How to Secure a Modern Web Application
- 07 Zero Trust for Small and Mid-Sized Businesses
- 08 Building a Security-Focused API Gateway
- 09 Lessons From Reverse Engineering Complex Systems
- 10 MBK.GLOBAL Technical Case Study Series

High-Value Article System

TEN TOPICS DESIGNED TO CREATE TOPICAL DEPTH

- 01 Who Is Muhammad Bakhtawar Khan? — Founder of MBK.GLOBAL
- 02 API Security for Modern Businesses: Practical Threat Model
- 03 Reverse Engineering: Methodology, Ethics, and Real-World Applications
- 04 REST vs GraphQL Security: What Changes?
- 05 AI-Assisted Security Workflows: Where Automation Helps
- 06 How to Secure a Modern Web Application
- 07 Zero Trust for Small and Mid-Sized Businesses
- 08 Building a Security-Focused API Gateway
- 09 Lessons From Reverse Engineering Complex Systems
- 10 MBK.GLOBAL Technical Case Study Series

Editorial rule: prioritize original experience, verifiable evidence, useful diagrams, and clear next actions.

Image & Visual Search SEO

MAKE EVERY VISUAL ASSET SEARCHABLE AND USEFUL

ASSET	FILENAME	ALT TEXT
Portrait	muhammad-bakhtawar-khan-founder.jpg	Muhammad Bakhtawar Khan, Founder of MBK.GLOBAL
Technical	mbk-bakhtawar-api-security.jpg	MBK_Bakhtawar explaining API security
Project	mbk-global-security-project.jpg	MBK.GLOBAL web security project
Brand	mbk-global-logo.svg	MBK.GLOBAL logo
Video Thumbnail	mbk-bakhtawar-api-security-video.jpg	API security guide by MBK_Bakhtawar

VISUAL ASSET RULES

- Keep original high-quality master files; export optimized web versions separately
- Prefer descriptive filenames over generic camera names
- Write natural alt text that describes the image; do not keyword-stuff
- Keep branding subtle — avoid giant watermarks that reduce usability
- Create original diagrams, screenshots, portraits, event photos, and project visuals
- Add ImageObject structured data
- Optimize for Google Images and Pinterest visual search

Authority, Backlinks & Digital PR

QUALITY OF EVIDENCE > QUANTITY OF LINKS

The goal is not to manufacture backlinks. The goal is to become reference-worthy.

CHANNEL	ACTION	OUTCOME
Open Source	Release useful tools / docs	Real users, stars, issues, contributors
Guest Publishing	Technical articles	Relevant audience + editorial standards
Podcasts	Founder / technical interviews	Real host + real audience
Events	Talks / workshops	Recognized event + public listing
Press	News / interviews	Independent publication
Communities	Helpful technical answers	Value first; no spam
Directories	Relevant professional profiles	Legitimate industry relevance

AUTHORITY PRINCIPLES

- Earn, don't manufacture — every link should be deserved
- Focus on relevance — a link from a security blog beats a general directory
- Build relationships — connect with journalists, podcasters, event organizers
- Document everything — keep a media kit, speaker bio, and high-res assets ready

Trust & Proof System

BUILD A PROOF LIBRARY

CATEGORY	CONTENTS
CREDENTIALS	Certificates, courses, events, memberships, legitimate affiliations
PROJECTS	Public demos, GitHub repositories, technical write-ups, screenshots
RESULTS	Case studies with measurable outcomes (with permission)
RECOGNITION	Interviews, talks, mentions, independent references

CERTIFICATE / EVENT UPLOAD CHECKLIST

- Use the real event / organization name in the title
- Add event date and location when relevant
- Use a clean scan or original photo
- Write a factual description — do not inflate the credential
- Link to the issuing organization when possible
- Reuse the asset across website, LinkedIn, Pinterest, and portfolio

Profile Copy System

SIX PLATFORM-READY POSITIONING BLOCKS

■ MASTER SHORT BIO

Muhammad Bakhtawar Khan (MBK_Bakhtawar) is the Founder of MBK.GLOBAL, specializing in Reverse Engineering, API & AI solutions, and Web Security.

■ LINKEDIN HEADLINE

Muhammad Bakhtawar Khan | Founder, MBK.GLOBAL | Reverse Engineering · API & AI · Web Security

■ INSTAGRAM / PINTEREST

Founder @MBK.GLOBAL · Reverse Engineering | API | AI | Web Security · Pakistan · mbk.global

■ YOUTUBE

Technical insights on Reverse Engineering, API Security, AI, and Web Security — by Muhammad Bakhtawar Khan, Founder of MBK.GLOBAL.

■ GITHUB

Founder @MBK.GLOBAL | Reverse Engineering | API Security | AI | Web Security | Building practical security-focused technology.

■ X / TWITTER

Founder @MBK.GLOBAL | Reverse Engineering · API · AI · Web Security | Building secure digital infrastructure | mbk.global

90-Day Execution Board

SIX PHASES FROM IDENTITY LOCK TO OPTIMIZATION

PHASE	DAYS	FOCUS	DELIVERABLES
01	1-15	Identity Lock	Profiles + portrait + website baseline + schema
02	16-30	Foundation	4 articles + 2 videos + project pages
03	31-45	Distribution	Social repurposing + community participation
04	46-60	Proof	Case study + open-source release + outreach
05	61-75	Authority	Podcasts / events / guest publishing
06	76-90	Optimization	Search Console + CTR + content refresh

EXECUTION RULE

Do not optimize every channel simultaneously. Lock the identity first, then publish evidence, then distribute, then optimize what earns traction.

Weekly Operating Rhythm

A REPEATABLE SYSTEM THAT COMPOUNDS

DAY	ACTION
MON	Publish / improve one high-value article
TUE	Technical short post + community contribution
WED	Video or visual explainer
THU	Founder / personal-brand post
FRI	Project, case study, or proof asset
SAT	Repurpose into Pinterest / carousel / short
SUN	Analytics review + next-week planning

■ WEEKLY REVIEW

What created evidence? What created discovery? What created qualified conversations?

KPI Dashboard

MEASURE THE SYSTEM, NOT VANITY NUMBERS

METRIC	BASELINE	TARGET	CATEGORY
BRANDED SEARCHES	Record now	Upward	Entity awareness
INDEXED PAGES	Record now	Healthy growth	Discoverability
ORGANIC CLICKS	Record now	Upward	Search visibility
REFERRING DOMAINS	Record now	Relevant growth	Authority
LINKEDIN PROFILE VIEWS	Record now	Upward	Professional discovery
YOUTUBE VIEWS	Record now	Upward	Video authority
GITHUB ENGAGEMENT	Record now	Upward	Technical proof
QUALIFIED INQUIRIES	Record now	Upward	Business outcome

MONTHLY REVIEW QUESTIONS

- Which branded searches increased?
- Which pages gained impressions but low CTR?
- Which content generated qualified conversations?
- Which backlinks or mentions are genuinely authoritative?
- Which profile is incomplete or inconsistent?
- What should be doubled down on next month?

Brand Security + Launch Checklist

PROTECT THE ENTITY WHILE YOU BUILD IT

RISK	MITIGATION
Negative search results	Build positive content that outranks
Impersonation	Verify profiles, report fakes
Data leaks	Use secure practices, never share sensitive info
Misinformation	Publish accurate, verifiable content

LAUNCH CHECKLIST

WEBSITE

Services live · Projects / portfolio live · Insights / blog live · Contact live · Sitemap submitted

PROFILES

LinkedIn complete · GitHub complete · YouTube complete · Instagram complete · X complete · Pinterest complete · Medium / Dev.to / Hashnode complete

CONTENT

12 authority topics mapped · 90-day calendar created · 3 signature series launched · Repurposing workflow ready

AUTHORITY

Open-source project · Case study · Podcast outreach · Event / talk outreach · Guest article outreach

MEASUREMENT

Search Console · Analytics · KPI baseline · Monthly review document · Brand search monitoring

Closing — The MBK Brand Formula

IDENTITY × EVIDENCE × DISTRIBUTION × CONSISTENCY

IDENTITY × EVIDENCE × DISTRIBUTION × CONSISTENCY

Build slowly enough to stay credible and consistently enough to become recognizable.

ELEMENT	DEFINITION	ACTION
IDENTITY	Who you are, what you do, where people can verify it	Lock profiles, portrait, bio, website
EVIDENCE	What you have actually built, published, solved, or contributed	Projects, articles, open source, case studies
DISTRIBUTION	Where your expertise is discovered	SEO, social, communities, podcasts, events
CONSISTENCY	The repeated signals that compound over time	Weekly rhythm, monthly review, quarterly audit
